4B Components Ltd: hazard monitoring systems, speed switches, roto-level indicators, class II hazardous ratings

ACI Automation Components Inc: temperature, humidity, pressure, current and gas sensors, interface devices

ACR Systems: portable data logging solutions

ATC Automatic Timing and Controls: timers, relays, counters, phase, current and voltage monitoring

Autonics: controllers – motion, stepper temperature, sensors, counters, timers, SSRs

Banner: photoelectric and ultrasonic sensors, safety products, and vision systems, wireless Ethernet and I/O radios

C3 Controls: pilot devices, switches and industrial controls, ordinary and hazardous duty

Contrex: smart digital controllers for drives and servos enabling speed match and position synchronization

Dehn: surge, arc fault, lightning protection for power, signal & IT systems

Dongan: transformers, CPTs, ignition, single/three phase, general purpose, DIT, hazardous area & buck-boost

Dover Flexo: web tension transducers (load cells) and controls for the converting industries

Encoder Products: incremental, absolute and programmable encoders, hollow-shaft and shafted, thru-bore, linear solutions & comms protocols

Euchner: safety interlock switches of many types, safety relays

Exlar: servo driven roller screw actuators (rotary and linear) and controls, rotary and linear valve actuator solutions

Fortress: mechanical and electrical safety interlock switches, modular machine control stations

Fuji Drives: varialbe frequency drives

Hammond: enclosures and wireway: JIC, instrument, full NEMA ratings, free standing

Horner Automation Group: all-in-one controllers with built-in logic engine, operator interface, networking and I/O

Horner Lighting: solid State lighting & energy savings LED technology, indoor, outdoor, hazardous and inspection lighting/controls

Iboco: wiring duct: organizes, retains, separates, and identifies to meet panel wiring challenges

Icotek: cable entry systems for pre-terminated and standard cables, and strain relief systems

Keystone: LED lighting, HID, compact, linear, fixtures & tubes/lamps, drivers & transformers

Kobold: flow, level, pressure, temperature solutions for process applications including gauges and transmitters, measurement and indication

Larco: presence-sensing mats for automatic doors and industrial safety

Littelfuse: fuses & fuse blocks, distribution blocks, protection relays & arc flash management

LS Industrial Systems: motor starters, contactors, overload relays and circuit breakers

Lovato: general purpose controls and logic controllers

Magne: magnetic particle clutches and brakes

MCR Technologies Group: conveyor belt scales, conveyor switches and monitors, metal detectors

Meltric: heavy duty switch-rated safety plugs and receptacles

Mencom: industrial connectors and receptacles, panel interface connectors

Micron Transformers: low voltage general purpose, buck boost and control power transformers

Monitouch HMI (Fuji): Fuji's full range of Human Machine Interface products

NK Technologies: current sensors, transducers, and power monitoring products

N-Tron: industrial ethernet, managed and unmanaged switches, wireless access points, POE and Gigabit switches a Red Lion business

Overly Hautz Company: adjustable motor bases and rails, automatic motor bases

Patlite: stack lights, audible signalling, strobes & rotating beacons

Pfannenberg: cooling units, chillers, heat exchangers, thermostats, heaters and hygrostats

Precision Digital: instrumentation, monitoring & control, loop & line powered, explosion-proof, batch, pump, flow rate, strain gauge and many more

Princeton Tec: Personal lighting, headlamps & handheld

PULS Power: power supplies, single and 3-phase, uninterrupted power and DeviceNet supplies

Pyromation: thermocouples, RTDs, thermowells, transmitters, connection head assemblies, T/C wire

Red Lion: HMI, PID Control, digital counters, rate meters, process meters, signal conditioning and I/O

Roxtec: modular based cable entry and pipe penetration seals

Saginaw Control and Engineering: enclosures, NEMA 4,12 and 4X

Stober Drives: speed reducers, concentric helical, offset-helical, helical-bevel, helical-worm and ServoFit precision planetary gearheads

Turck: proximity sensors, cordset connectivity for process and factory floor applications, process instrumentation, I/O and interface devices, RFID

Vynckier Enclosures: non-metallic enclosures

WAGO: terminal blocks, connectors, and modular I/O systems

WEG: AC induction motors, VFDs, soft starters and general purpose controls

Werma: stack lights, audible signalling, strobes and rotating beacons

Yaskawa: global leader in VFD technology, V/Hz, vector, micro drives, general purpose, HVAC/Pump, comms protocols & pre-configured packaged drives
